Enclosure No. /

Sir,

With reference to your letter No. G.13692-Geol.34-17-10, dated 5th April 1918, regarding the application from Messrs. T. Chinnasamy Iyer & M. Singaravelu Mudaliar for (1) a mining lease for Mica and Asbestos over a block selected by them within the area of their prospecting license No. 350 in the Hole-Narsipur Taluk and (2) the renewal of the said prospecting license over the rest of the area, I have the honour to forward herewith for the information and orders of Government a copy of letter, dated 26th April 1918, from Messrs. T. Chinnasamy Iyer & M. Singaravelu Mudaliar. They have agreed to the condition that the Government should be

given the first refusal of the entire output of asbestos obtained under the mining lease but they state that they have already entered into an agreement with Mr. M.L. Vardhamanish, Sowcar, Mysore, for the supply to him of 40 tons asbestos per month for a period of 3 years from 1st October 1917, and request therefore that they may be permitted to fulfil the terms of that agreement. The request appears reasonable and the permission applied for may therefore be kindly granted.

2. With regard to the remainder of the area comprised in their prospecting license No.350, they state that they wish to further prospect the area for at least a year or two in order to ascertain the existence of workable deposits therein and request that they may be granted a fresh prospecting license over it instead of the renewal of the present license.

3. There does not appear to be any disadvantage to the Government by the grant of a fresh license as requested by them; on the other hand it would lead to a probable exploitation of the area for mica and asbestos by private enterprise and private capital. It does not also appear to be desirable that the area in question should be let out to others. I beg to recommend therefore that a fresh prospecting license may be granted and in case any portion of the area is selected for purposes of mining, the same may be included under their present mining lease, at the discretion and sanction of Government.

I have the honour to be,

Sir,

Your most obedient servant,

B. Jagan Ramu

Offg. Director,

Department of Geology.

Letter, dated 26th April 1918, from Messrs. T.Chinnasamy Iyer and M. Singaravelu Mudaliar, 141, Narain Pillay Street, Bangalore Cantonment, to B. Jayaram, Esquire, F.G.S., Director Department of Geology, Bangalore.

We have the honour to acknowledge the receipt of your letter No.2552, dated 16th instant and to note, with thanks, that the Government have been pleased to sanction the grant of a Mining Lease in favour of both of us for Asbestos and Mica in the Kabbur Mine. We agree to the condition stipulated in respect of "Asbestos" viz., that the Government should be given the first refusal of the entire out-put, but we beg to bring to your kind notice that we have already entered into an agreement with Mr.M.L. Vardhamaniah, Sowcar, Mysore, to supply him with 40 tons of asbestos per month for a period of three (3) years from 1st October 1917 and to request therefore that permission may be granted to us to fulfill the terms of this agreement.

2. The deposit of Rs.1000/- payable for the Mining Lease will, as instructed in the letter under reference, be paid into the State Huzur Treasury and the Treasury receipt forwarded to you in due course.

3. With regard to the remainder of the prospecting block not included in the Mining Block, we beg to say that we are not satisfied as yet as to the advisability of its inclusion in the Mining Lease. We are however anxious to further prospect the area with a view to determine the existence of workable deposits. This might take at least a year or two and we shall feel highly grateful if you ^{will} ~~be~~ kindly grant us a fresh

prospecting

6

prospecting license instead of the renewal of the present prospecting license.
